

MADISON'S GOAL

Madison's goal is to optimize your kitten's health and happiness at a low cost to you. Young kittens require a considerable amount of veterinary care in their first year of life.

Madison Veterinary Hospital is committed to providing you & your new kitten a variety of services including routine and unexpected circumstances.

This includes, but is not limited to, physical examinations, several series of immunizations & parasite control and prevention.

We have created this kitten plan to provide you with optimal care at a premium discount. This will allow you to have peace of mind during the next 12 months of life.

We want nothing more than to help your growing kitten become a happy, healthy adult.

Madison's 12-body System, **GOLD** Standard Physical Examination far exceeds the "basics" done elsewhere. It is very important for your pet to see his/her veterinarian twice a year since pets rapidly age 7 years to every human year!
